What's Included:

- Mounting: Portraits 8x10 and larger are permanently mounted to sturdy art board. **Be sure to request if mounting is not desired.**
- Lacquering: Portraits 8x10 and larger are sealed with a tough acrylic protectant to seal them from harmful ultraviolet rays and elements to minimize aging and discolorization. This allows framing without glass to avoid glass reflection.
- Cropping: We can change the look of your preview by cropping or tightening the pose if you want. Remember that 8x10's crop differently than 5x7's and wallets.
